The hidden immensity of Gigante cave is a unique underground experience. A specialised guide accompanies visitors for approx an hour along a path of 850 meters. The deepest point reachable by visitors is found at a depth of 101m below the entrance. The path passes through thousands of limestone formations giving the visitor a glimpse of the amazing world underneath our feet as the guide unveils the secrets of the formations of the karst caves.

Fun for everyone in the Trieste Karst. Change your point of view and take a stroll on trees, play at 8 meters high or challenge your limits. The Trieste Adventure Park proposes different paths and contexts in order to meet the expectations of adults and children. Whether you want to throw yourself among the vines or bring your children to play in nature ... you will always find what you are looking for. It depends only on you.
